Do you have any outstanding dues to	DEAP?	Yes \(\bar{\cup} \) No \(\bar{\cup} \)

Do yo	u agree to pay all future dues agreed at an AGM of EAP?	Yes		No □
Is your organization financially self-supporting? Yes \square No \square			No □	
Please	e provide a copy of your most recent audited accounts.			
This is a preliminary list of a number of the main modalities of psychotherapy modified from that put forward by the Scientific Validation Sub-Committee. Please tick each of the modalities on this list in which there are qualifications recognized by your organization. Please add as many additional modalities as you wish.				
	Psychodynamic or psychoanalytic psychotherapy			
	Behavioural and cognitive psychotherapy			
	Family, sexual, and couple psychotherapy			
	Group psychotherapy			
	Humanistic psychotherapy			
	Gestalt psychotherapy			
	Transactional analysis			
	Existential psychotherapy			
	Body psychotherapy			
	Transpersonal psychotherapy			
	Expressive psychotherapy			
	Hypnopsychotherapy			
	Integrative psychotherapy			
	Child psychotherapy			
	Experiential psychotherapy			
	Other psychotherapy (please specify, or leave blank)			
	Other psychotherapy (please specify, or leave blank)			

Continue on separate sheet if necessary.	
	Other psychotherapy (please specify, or leave blank)
	Other psychotherapy (please specify, or leave blank)

Please return to:

Scanned version: of this form to be sent to membership@europsyche.org

Please note that the headoffice is unable to answer enquiries over the telephone.

Notes on application:

- 1. Please ensure that all the documentation requested has been sent with the application, otherwise applications may be returned.
- 2. Name of your organization: please give the name, in English, by which your organization wishes to be known along with acronym that you recognize
- 3. In good standing: this means that your organization does not have debts to EAP, that there is no complaint to EAP in process against your organization, and that your organization has agreed who is to be its delegate(s) to general meetings, to the Board, or to other committees of EAP
- 4. The Strasbourg declaration must not be amended
- 5. An independent legal entity is one which is able to enter into contracts, for example to rent or buy premises, or to hire staff. Some evidence that you are established in this way is what we are looking for. We do also need to have a copy of your statutes—the document which governs the procedures in your organization—on file
- 6. Evidence for the size of your organization can be provided by sending us a list of your members and the modalities which they follow. If your members are organizations, please give us the size of each organization.
- 7. Financial self-support means that your organization is not dependent on one other organization or person for its income, that it has its own accounts, that it is not a financial subsidiary of any other organization, and that it trades successfully. The audited accounts should be annotated in English so that these points are clear.
- 8. The list of modalities is not an official list of acceptable modalities. We will not have that until the EWOC and the Scientific Validation Sub-committee have finished their work. It is simply a very personal map of the psychotherapy universe. Your answers will help the ETSC to anticipate which modalities might present greater or lesser problems in recognition in the future. The ETSC will also use your answers to give some information about the range of modalities recognized by you.
